## **DETAILED ACTION**

### ***Response to Remarks***

1. The Office Action has been issued in response to amendment filed September 10, 2007. Claims 1-54 are pending.

### ***Allowance***

2. The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: The most pertinent prior art is Tian (NPL Document titled: "Wavelet-based reversible watermarking for authentication") and Goljan et al (NPL Document titled: "Distortion-Free Data Embedding for Images"). Tian discloses a method for wavelet-based reversible watermarking for authentication comprising: subjecting an original, pixel domain image to an Integer Wavelet Transform to obtain a matrix of wavelet; compressing the at least one selected bit plane to produce free space in the at least one selected bit plane; embedding hidden data in the free space of the at least one compressed bit plane; and subjecting the at least one embedded bit plane and the other bit planes to an Inverse IWT to produce a marked pixel domain image. However, Tian does not disclose expressly selecting at least one bit plane between a least significant bit plane and a most significant bit plane of the matrix of wavelet coefficients. Goljan disclose a method for distortion-free data embedding that includes the step of selecting at least one bit plane between a least significant bit plane and a most significant bit plane of the matrix of wavelet coefficients. However, neither

Tian or Goljan teach preprocessing an original pixel domain image to modify any data plotted at extremes of an ordinate axis of the original pixel domain image. Modifying the data plotted at extremes of an ordinate axis mitigates against any overflow/underflow that may occur when modifications are made to the selected bit plane, particularly at the high frequency IWT coefficients. The examiner finds no reason or motivation to combine the above references in an obvious rejection thus placing the application in condition for allowance.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
